In between 2001 and 2002, the program really became popular and the class expanded. At that time, the leadership team actually ran two consecutive classes, with joint sessions interspersed to keep the class together—the two teams for 2002 were “Ice” & “Maverick.” This two team approach lasted through 2005 when the class determined they wanted to do everything together.

Voyagers

In 2004, many younger professionals in government and industry were asking “how long” they had to wait in their career in order to apply to the Partners Program. Seeing a need, ACT-IAC launched the Voyagers Program in the spring of 2005, with Graduation at the Annual Holiday party for the Partners.

In 2009, the Voyagers Program shifted six months to coincide with Graduation at the Management of Change (MOC) conference in the spring, hence, there was no Voyagers 2009! In that 2009 timeframe, the Past Partners Program (P3) morphed into the Fellows – and included all graduates of the Partners and Voyagers Programs.
